

## About chloride process $\text{TiO}_2$ project of Jicheng/Yanshan in Dec. 2021

The main part of the first phase project (2x80,000 t/a chloride process  $\text{TiO}_2$ , 2x100,000 t/a titanium slag and 1x160,000 t/a artificial rutile) of Hebei Jicheng's 1 million t/a chloride process  $\text{TiO}_2$  project was completed. This project is predicted to be finished and start trial production in March 2022.
