## **Executive summary**

As of 1 Dec., 2022, there were altogether 180 valid registrations of clethodim from 116 companies in China, including 27 for TC, 17 for TK, 110 for single formulations and 26 for mixed formulations, respectively.

In 2022, there were 12 clethodim technical producers in China and 8 of them were active. The capacity increases from 15,680 t/a in 2018 to 28,800 t/a in 2022 (estimated), with a CAGR of 16.42%, while the output increases from 10,170 tonnes in 2018 to 17,400 tonnes in 2022 (estimated), with a CAGR of 14.37%.

With unstably growing demand, the total export volume (converted into 100% AI) of clethodim technical and formulations in China went through ups and downs in 2022. In Q1–Q3, 2022, China exported approximately 12,769 tonnes of clethodim, a 17% increase year on year.

## Introduction and methodology

*Production and Export of Clethodim in China* is CCM's report on production situation of clethodim industry in China finished in Dec. 2022. This intelligent report attaches importance to following parts:

- Registration of clethodim (including technical and formulations) in China;
- Production (capacity & output) and producers of clethodim in China, 2018–Nov. 2022;
- Export of clethodim in China by volume and price, 2020–Sept. 2022.

The report is drafted by diverse methods as follows:

- Desk research

The sources of desk research are various, including published magazines, journals, government statistics, industrial statistics, customs statistics, association seminars as well as information from the Internet.

- Internet

CCM contacted with players in the domestic agrochemical industry through B2B websites and software as well as obtained registration information on the internet.

- Data processing and presentation

- CCM's database
- China Customs
- Published articles in periodicals, magazines, journals and third-party databases
- Statistics from governments and international institutes
- Telephone interviews with domestic producers, joint ventures, service suppliers and governments
- Third-party data providers
- Comments from industrial experts
- Professional databases from other sources
- Information from the internet

The data from various sources have been combined and cross-checked to make this report as precise and scientific as possible. Throughout the process, a series of internal discussions were held in order to analyse the data and draw the conclusions.

- Abbreviation

CAGR: Compound annual growth rate

YoY: Year-on-year

TC: Technical material

TK: Technical concentrate

ME: Micro emulsion

EC: Emulsifiable concentrate

OD: Oil dispersion

- Unit

t: tonne

t/a: tonne/annual

USD: currency unit in the US

RMB: currency unit in China, also named yuan

tonne: equals to metric ton in this report

## 1 Registration of clethodim in China

As of 1 Dec., 2022, there were altogether 180 valid registrations of clethodim from 116 companies in China, including 27 for TC, 17 for TK (with one export-only), 110 for single formulations and 26 for mixed formulations, respectively, according to the Institute for the Control of Agrochemicals, Ministry of Agriculture and Rural Affairs (ICAMA). Generally, clethodim formulations are applied to fields of soybean, rapeseed, tobacco, potato, mung bean and red bean against gramineous weeds.

Only three types of clethodim formulations—EC, OD and ME—were registered. In the registrations of clethodim's single formulations, 109 registrations were for EC and only 1 was for OD in China. As to mixed formulations, 16 registrations were for OD, 9 for EC and one for ME.

Table 1-1 Registrations of clethodim technical in China, as of 1 Dec., 2022

## 2 Supply of clethodim in China, 2018–2022

### 2.1 Overview of production

On the whole, the production capacity and output of clethodim technical in China maintain an uptrend from 2018 to 2022. The capacity increases from 15,680 t/a in 2018 to 28,800 t/a in 2022 (estimated), with a CAGR of 16.42%, while the output increases from 10,170 tonnes in 2018 to 17,400 tonnes in 2022, with a CAGR of 14.37%.

Figure 2.1-1 Capacity and output of 90% clethodim technical in China, 2018–2022E

Note: 2022E means the data for 2022 are estimated.

Source: CCM

### 2.2 Producer

In 2022, there were 12 clethodim technical producers in China and 8 of them were active.

On 8 June, 2021, Ningxia Gerui Biotechnology Co., Ltd. (Ningxia Gerui), the wholly-owned subsidiary of Shandong Weifang Rainbow Chemical Co., Ltd., passed the completion acceptance for 500 t/a clethodim technical.

On 8 Jan., 2022, Hebei Lansheng Biotech Co., Ltd. (Hebei Lansheng)'s 4,000 t/a clethodim technical project completed construction and entered operation.

According to the 2022 semi-annual report of Shandong Cynda Chemical Co., Ltd. (Shandong Cynda), its wholly-owned subsidiary Liaoning Cynda Chemical Co., Ltd.'s new clethodim technical production lines (8,000 t/a) were put into operation in H1 2022, making Shandong Cynda the largest clethodim producer in China with total clethodim capacity of 12,100 t/a as of 2022.

Hebei Wuqiao Pesticide Co., Ltd. transferred 90% TC qualification to its subsidiary, Wuwei Lianshuo Biotechnology Co., Ltd. who now has 2,000 t/a clethodim technical capacity in operation since April 2021.

It is worth noting that some main clethodim technical producers in China were still in production suspension in 2022, due to strong pressures from environmental protection policies.

Table 2.2-1 Capacity (t/a) and output (tonne) of clethodim technical in China, 2018–2022

Source: CCM

There were potential capacities planned in 2022.

On 5 Sept., Ningxia Gerui's renovation and expansion project was issued with the environmental impact assessment, planning to expand the current 500 t/a clethodim TC capacity to 2,000 t/a. Its plan for 2,000 t/a clethodim TC, 20,000 t/a 2,4-D TC and 500 t/a Haloxyfop-P-methyl TC proposed in 2017 would not continue according to Shandong Weifang Rainbow Chemical Co., Ltd.

On 22 Sept., Hebei Lansheng's 20,000 t/a clethodim TK project was approved for the environmental impact assessment by local governments. On 17 Oct., its subsidiary Lanrun Plant's renovation and environmental facilities upgrade project for technical and adjuvants was publicised, including 3,000 t/a clethodim TC, 500 t/a of 120g/L clethodim EC. and 900 t/a of 240g/L clethodim EC.

On 25 Nov., the EIA document of the relocation and upgrading project about 15,200 t/a pesticide technicals and intermediates of Jiangxi Heyi Chemical Co., Ltd., a wholly-owned subsidiary of Nutrichem Co., Ltd., was publicised, which is to build capacity of 2,000 t/a clethodim TC.

On 2 Dec., the EIA document of the pesticide project of Liaoning Youchuang Plant Protection Co. Ltd., a wholly-owned subsidiary of Jiangsu Yangnong Chemical Co., Ltd. was publicised, which is to build capacity of 15,650 t/a pesticide technical and 7,000 t/a intermediates, including 5,000 t/a clethodim TC.

On 5 Dec., the environmental impact assessment (EIA) document of Zhongnong Ruihua (Gansu) Pharmaceutical Co., Ltd.'s pesticide and pharmaceutical intermediates, technical and formulation production line project (Phase I) to build capacity of 4,000 t/a clethodim TC and 2,500 t/a clethodim EC.

Table 2.2-2 Potential capacity of clethodim technical in China, 2022

No.	Producer	Project location	Planned capacity, t/a	Remark
1	Zhongnong Ruihua (Gansu) Pharmaceutical Co., Ltd.	Gansu Province	4,000	Environmental impact assessment approved
2	Liaoning Youchuang Plant Protection Co., Ltd.	Liaoning Province	5,000	Under environmental impact assessment
3	Jiangxi Heyi Chemical Co., Ltd.	Jiangxi Province	2,000	Environmental impact assessment approved
4	Hebei Lansheng Biotech Co., Ltd.	Hebei Province	20,000	Environmental impact assessment approved
5	Hebei Lanrun Plant Protection Technology Co., Ltd.	Hebei Province	3,000	Under environmental impact assessment
6	Ningxia Gerui Biotechnology Co., Ltd.	Ningxia Province	2,000	Under environmental impact assessment

### 3 Export of clethodim in China, 2017–Q3 2022

#### 3.1 Export situation

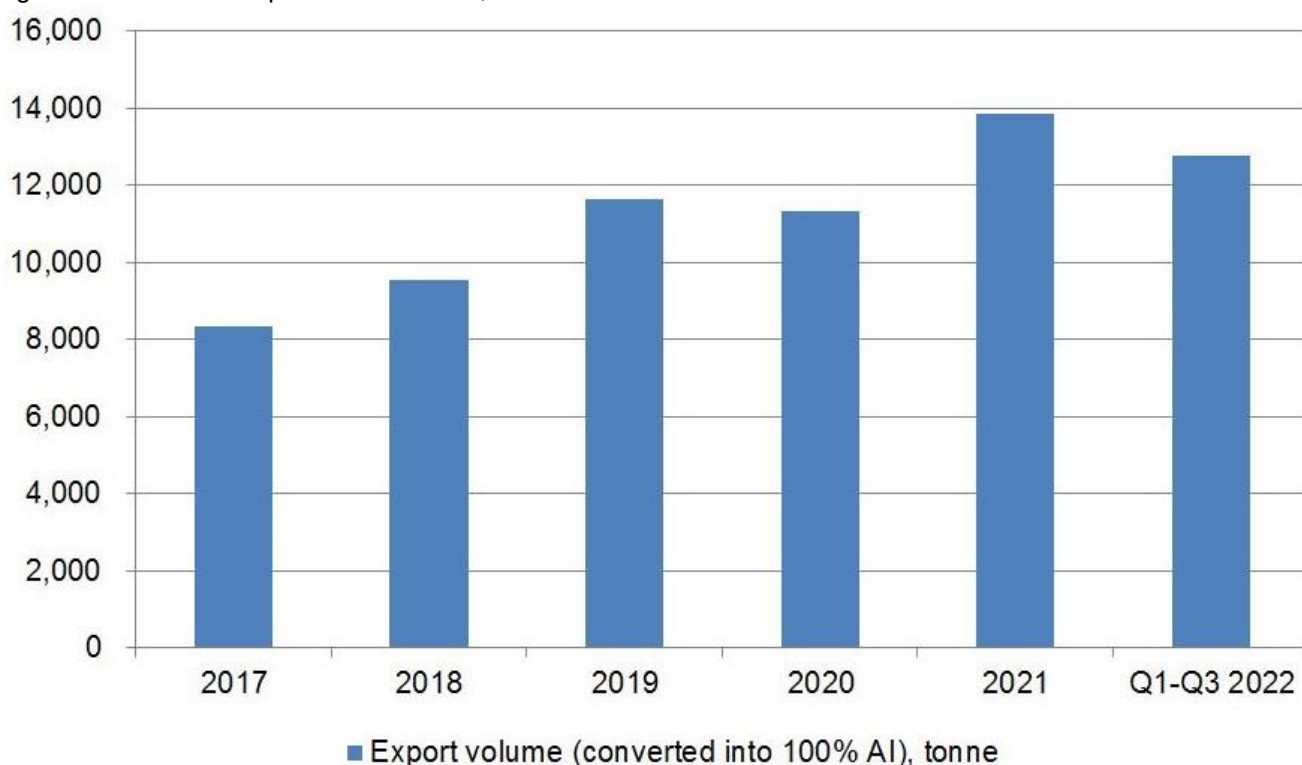

With unstable growing demand, the total export volume (converted into 100% AI) of clethodim technical and formulations in China went through ups and downs. In Q1–Q3, 2022, China exported approximately 12,769 tonnes of clethodim, registering a YoY increase of 17%.

In 2021, China's major export-oriented clethodim products were 37% TK, 94% TC and 95% TC. Of those, the volume (in real terms) of 37% TK and 94% TC accounted for 54.84% and 37.50% of China's total exports of clethodim technical, respectively. While the types of exported clethodim formulations were 240g/L EC, 120g/L EC and 36 g/L EC; the 240g/L EC accounted for 91.22% of the total export volume of clethodim formulations in 2021.

In 2021, China's clethodim were exported to at least 28 countries and regions. The top five export destinations by volume were Brazil, the US, Argentina, Russia and Paraguay in the year, accounting for 95.90% of China's total clethodim export volume (100% AI volume).

In 2021, a total of 94 companies took part in the clethodim export business in China. The top three exporters by volume (100% AI volume) were Zhejiang Hengdian Import and Export Co., Ltd., Shandong Cynda Chemical Co., Ltd. and Jiangsu Yunfan Chemical Co., Ltd., respectively.

### 3.2 Export price

Export prices of clethodim formulations saw slight fluctuations over recent years, gradually rising from 2017 with a peak in 2019 before a lasting decline to Q3 2022.

The clethodim technical export prices moved more drastically than that of the formulations. For example, the annual export price of 95% TC peaked in 2018 at USD25.29/kg and dropped in 2019–2020. In 2021, the rebounded figure reached a new high and in Q3 2022, it fell slightly.

#### **4 Current problem**

Problems have arisen in the rapid development of the domestic clethodim industry in recent years, especially when China becomes increasingly competitive amongst the global rivals.

##### **- Excessive expansion of companies may lead to overcapacity**

In recent years, seeing increasing demand for clethodim at home and abroad, several domestic clethodim companies have expanded their production capacity since 2019, and some planned to continue to expand further. It's worth noting that the competition will intensify and may lead to overcapacity in the future as domestic capacity continues to increase.

##### **- Limited varieties of clethodim formulation products**

As of Dec. 2022, only three types of clethodim formulations—EC, OD and ME—were registered.

##### **- Weak brand influence of clethodim products**

In 2022, there were 12 Chinese enterprises producing clethodim technical, yet their brands were not prominent to the world, with exports heavily dependent on the lower prices. Clethodim had its debut in the global market in 1987, whereas the production in China first came in 2003.

##### **- Impact of genetically modified (GM) crops**

The herbicide-resistant GM soybean, cotton and rapeseed have been widely planted, which is also unfavorable to the development of clethodim.

The popularity of herbicide-resistant GM crops brings a great impact to post-emergence selective herbicides including clethodim. Herbicide-resistant GM crops usually have resistance to one or several herbicides including glyphosate, glufosinate-ammonium, 2,4-D and dicamba, which makes them strong competitors to post-emergence selective herbicides. The low price of 2,4-D and glyphosate and broad weed control spectrum of these four herbicides are unfavorable to the development of post-emergence selective herbicides.

Therefore, the clethodim producers should expand the use range of clethodim and focus on exporting clethodim to the regions having relatively small acreage of GM crops.

## 5 Conclusion and opportunity

Clethodim has developed rapidly in the world, pushing up the development of China's clethodim industry in recent five years. In 2017–2022, the output of clethodim in China grew at an annual average growth rate of 13.30%. As of Dec. 2022, 116 enterprises have obtained the production certifications of clethodim products (including technical and formulations). Among them, 12 TC manufacturers have actively engaged in the production and construction of new capacity. It is forecasted that there will be a fiercer competition.

Clethodim has the advantages of high effectiveness, low residue and relatively lower price. Owing to the higher requirements on environmental protection at home and abroad in recent years, clethodim, as an effective and environment-friendly herbicide, gradually replaced some herbicide varieties with high residue and heavy toxicity, witnessing a rapid increase in sales.

The applicable crops of clethodim have further increased. Currently, clethodim is mainly applied to soybean field. At the same time, its use continues to expand to broad-leaved crops such as rape, sugar beet, sunflower, cotton and vegetables and non-arable land. In particular, in raising rape, sugar beet and sunflower, clethodim has been playing an important role.

Compared with other selective post-emergence herbicides such as fluazifop-P-butyl, haloxyfop-P-methyl and quizalofop-P-ethyl, other competing products in soybean application, clethodim is superior in costs of production and application. What's more, there is a great potential for glyphosate and clethodim mixed formulations in glyphosate-tolerant crops. These also open up a good market prospect for clethodim, which is one of the reasons for the rapid development of clethodim in recent years.

From the upper reaches, on 24 Aug., 2022, the EIA document of Gansu Runtaihe Science and Technology Co., Ltd.'s 10,000 t/a mercaptan series products project was published on the local government's website for the first public notice, involving building of production lines for 6,000 t/a ethyl mercaptan (major intermediate for clethodim) and supporting auxiliary facilities. This new intermediate capacity may ease the continuous tight supply of raw materials for clethodim and benefit Chinese clethodim manufacturers in terms of cost and supply efficiency, given most of the current use of ethyl mercaptan in the country are imported.

## 6 Contact information of major producers in China

Table 6-1 Contact information of major clethodim producers in China

No.	Producer	Tel.	Address
1	Shandong Cynda Chemical Co., Ltd.	86-543-2320028	6F Yinhe Building D, No. 2008 Xinluo Road, Hi-tech Development Zone, Jinan City, Shandong Province, P. R. China
2	Yifan Biotechnology Group Co., Ltd.	86-577-86637855	No. 555 Chang'an Road, Yaoxi Street, Longwan District, Wenzhou City, Zhejiang Province, P. R. China
3	Cangzhou Green Chemical Co., Ltd.	86-317-4852028	Xingji Town, Cangxian County, Cangzhou City, Hebei Province, P. R. China
4	Shenyang Sciencreat Chemicals Co., Ltd.	86-24-25850856	No. 17 Xihe 9th North Street, Economic and Technological Development Zone, Shenyang City, Liaoning Province, P. R. China
5	Hebei Wuqiao Pesticide Co., Ltd.	86-317-7238181	Songmen Industrial Park, Economic Development Zone, Wuqiao County, Cangzhou City, Hebei Province, P. R. China
6	Hebei Lansheng Biotech Co., Ltd.	86-311-84498010	Mayu Village, Jinzhou City, Shijiazhuang City, Hebei Province, P. R. China
7	Jiangsu Sevencontinent Green Chemical Co., Ltd.	86-512-58609901	Dongsha Chemical Zone, Zhangjiagang City, Suzhou City, Jiangsu Province, P. R. China
8	Jiangsu Yangnong Chemical Co., Ltd.	86-514-85860486	5/F High-tech Zone Building, Anqiao Road, Hanjiang District, Yangzhou City, Jiangsu Province
